KALMBACH HISTORY

Kalmbach Park is a distinct community park established by the late industrialist, Frederick Kalmbach, founder of Electric Furnace Man, in Emmaus, PA. Although born in Germany in 1879, Mr. Kalmbach felt deeply privileged to experience the freedoms and cultural diversity of America. Therefore, he bequeathed his twenty-two-acre homestead as a place for others to gather and appreciate the freedoms and profound wonders of our American heritage. With the appointment, and under the direction of three Trustees, Don Young, Karen Holt, and John Albright, the desires and wishes of Mr. Kalmbach have been realized. Today, his generous vision is cherished by many.
